## Primary Activity #9

As a young boy, Joseph Smith loved to read about the adventures of famed pirate Captain Kidd. Legends tell of a golden treasure buried in the side of a hill somewhere in the Camora Islands. Help Captain Kidd sail his pirate ship through the treacherous waters to Moroni, the capital city of the Camora Islands, which is a real place the pirate visited. To win the game, make it through the maze while avoiding Mutiny, by rolling a d6 each time you encounter it. Should your crew Mutiny, the game is over.

Start ->

Note: Although today the islands are called "Comoros," an 1808 map of Africa called them the "Camora Islands."
